•Member, The Land Conservancy of San Luis Obispo County

Statement of Interest and Background

My primary interest on LAFCO has been to assure that annexations are supported by robust municipal services. At the Nipomo Community Services District, I have supported and directed a multi-million dollar project to bring an additional 3,000 acre-feet of water per year to the Nipomo Mesa, totally rebuilding our sewer plant, and merging the Black Lake Village and Town sewer plants. I am currently reviewing the NCSD water and sewer modifications required for a potential new development with 1,300-1,400 new homes.

Prior to my 1999 retirement from Hughes Space and Communications Co., I spent 35 years as a design engineer and program manager in Southern California's aerospace industry. I am a UCLA graduate with Bachelor of Science and Master of Science in Engineering degrees, and post-graduate studies in technical and management programs. I have lived in Nipomo for the last 20 years. In my spare time, I enjoy hiking and growing fruits, vegetables, and native plants.
